

REMARKS/ARGUMENTS

This letter is supplemental to our Response dated June 2, 2003. The Examiner had requested a new oath or declaration from the inventors. At the time that our Response of June 2, 2003 was filed, we were still waiting the executed declaration from the inventors. We have now received the executed declaration as requested by the Examiner and the original declaration is attached hereto. The applicant still claims priority from United States 60/261,203.

By this Response, the applicant has re-inserted former claim 29. In the restriction requirement, the Examiner had indicated that claim 29, related to a different invention. In reviewing the claims, the applicant has noted that former claim 29 actually depended from claim 9 and was therefore the proper subject of this application.

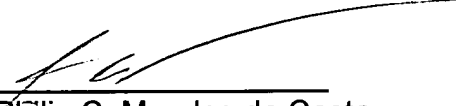

Favourable consideration of the application with a view to allowance is respectfully requested.

Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully submitted,

BERESKIN & PARR
